EXHIBITOR TESTIMONIALS

“ The Big 5 Solar is the platform to truly demonstrate and showcase our products and solutions to the various industries corresponding under the umbrella of The Big 5 event. The co-location provided a unique opportunity where we could meet the decision makers from other markets, like construction, and come up with new solutions that allow these markets to benefit from renewable energy. ”

Naseer Sayed
CEO, Group Solar Hong Kong (GSHK).

“ We were a team of 12 at The Big 5 Solar, and still we were kept busy throughout. There were more visitors than we expected, with many more people interested in our products than we anticipated - it's a nice problem to have. ”

Abdulrahman Alnounou
CEO, Back 2 Back group

WHAT OUR PARTICIPANTS HAD TO SAY

“ I found the exhibition very nice and informative. The number of exhibitors are helpful and the entire experience has been very constructive for me. I have come in from Saudi and want to bring the solar concept there. This opportunity will be very helpful and important for me to start my solar business in Saudi. ”

Khaled Chawki
CEO, Hermes Trading Company

“ Solar energy seems to be one of the main topics these days when it comes to renewables and I was pleased for both the summit as well as the solar talks there were a lot of people who were interested and that's why I tried to break it down so that everybody can actually understand the different parameters and what's important for the same. I got questions from all over the Middle East and I was actually very pleased and it seems like it was beneficial for everybody and I definitely learned a lot whilst interacting from a lot of people. ”

H. Pirouz Kavehpour (speaker)
PROFESSOR AND VICE CHAIRMAN, UCLA
