

## BRIEFLY, ABOUT LARGE-SCALE CONSTRUCTION PROJECTS IN UZBEKISTAN

- In 2022, Tashkent will host one of the most important events not only for the Central Asian region, but for the whole world — the Shanghai Cooperation Organisation summit. It will be attended by about 20 heads of state and government leaders. A modern airport in the form of an open book opened in Samarkand. It is capable of serving up to 800 people per hour and up to 120 flights per week.
- A new Samarkand International Tourist Centre is being built for the Shanghai Cooperation Organisation summit's guests and tourists - this will be the main area where the events of the planned summit will take place - hotels, a winery and an amphitheater. In Samarkand, 8 hotels will be built (in 7, 11 and 22 floors) of different categories and stars will be built in Samarkand.
- In 2023, the second hotel of the Hyatt hotel chain in Uzbekistan will be built in Bukhara.
- An Olympic town has been designed to host the Asian Youth Games 2025 in Tashkent, which is planned to be built in Tashkent. According to the project, an Olympic stadium, indoor sports complexes, a palace of water sports, training grounds, and a rowing canal will be constructed. It is also planned to build an administrative building, a dormitory, a museum and economic facilities.

**190**

Number of visits

**7349**

## FEEDBACK FROM THE EXHIBITORS:

**BAKHTIYAR KASIMOV,**  
Marketing specialist, Uzmetskombinat

The exhibition was intense, a lot of representatives of other companies are interested in purchasing our products, as there are a lot of builders. Exhibition is very interesting as many foreign companies presented in it. The visitors had only intentions to work with us so far. Since we are one of the largest state-owned company in Uzbekistan, we have many clients from the construction industry. The organisation of the exhibition was very good.

**ASLAN BAKIROV,**  
Leading Training Specialist, Tikkurila

The exhibition turned out good. We have attracted a lot of attention especially to our painting, which we painted with our eco-friendly interior paints. The exhibition turned out to be really good, we liked it because we received a lot of feedback, had really many useful contacts and hope that such exhibitions will take place every year and we could participate. Thanks a lot to the organisers, everything is really cool, interesting and good.

**RAVSHAN ASADOV,**  
Director, Trade Production International / Marmar.uz

The exhibition is going well. Many professional visitors from other countries, such as Kyrgyzstan, Kazakhstan, Turkmenistan, Russia, and interested visitors visited our stand. We have already signed a number of contracts for the supply of our products to the nearest countries, and I think the exhibition was a success for us. The organisation of the exhibition was at the highest level, all the goals have been achieved, so we are very satisfied.

**MARLENE YUSUPOV,**  
Head of Project Department, IBS group

This year the exhibition was held on a larger scale and more interesting. After all, we are coming out of the pandemic, all of this have certainly affected both building and exhibition industries. We are very pleased with the results, we have found new acquaintances, new contacts, which we will work on after the end of the exhibition. Preliminary agreements have been concluded, and now there is a long period of work on projects. The organisation is as always at the highest level, there are many foreign companies among exhibitors, which is good. I would like to add that our company received an award from the organisers in the nomination best product presentation. We are very grateful.

**SHERDOR AKHMEDOV,**  
Director, Legno Service Design

The exhibition is going on fruitfully, we have found potential, I believe, customers for the supply of wood. Now it is very fashionable to have your own chalet. Therefore, many people are interested in our products. In general, this is the third year we have been participating in UzBuild and the first year was very fruitful for us. I believe that we have realized our goals in the new market quite well. This year there were targeted visitors, on second day of the exhibition, it was quite crowded. Potential groups of consumers came, we even most likely agreed, there are preliminary agreements. The organisation is at a high level, quite well organised. I am personally very pleased.
